QEF Election On 300 Shares

QEF on 100 Shares & MTM on 200 Shares

Corp Y, a domestic corporation, owns directly 100 shares of marketable stock in foreign corporation FX, a PFIC. Corp Y also owns a 50 percent interest in FP, a foreign partnership that owns 200 shares of FX stock. Accordingly, under section 1298(a)(3) and Reg. 1.1296-1(e)(1), Corp Y is treated as indirectly owning 100 shares of FX stock. Corp Y also owns 100 percent of the stock of FZ, a foreign corporation that is not a PFIC. FZ owns 100 shares of FX stock, and therefore under section 1298(a)(2)(A), Corp Y is treated as owning the 100 shares of FX stock owned by FZ. For taxable year 2005, Corp Y has a QEF election in effect with respect to all 300 shares of FX stock that it owns directly or indirectly. See generally Reg. 1.1295-1(c)(1).

For taxable year 2006, Corp Y makes a timely election pursuant to section 1296 and the regulations thereunder. For purposes of section 1296, Corp Y is treated as owning stock held indirectly through a partnership, but not through a foreign corporation. Section 1296(g); Reg. 1.1296-1(e)(1). Accordingly, Corp Y's section 1296 election covers the 100 shares it owns directly and the 100 shares it owns indirectly through FP, but not the 100 shares owned by FZ. With respect to the first 200 shares, Corp Y's QEF election is automatically terminated effective December 31, 2005. With respect to the 100 shares Corp Y owns through foreign FZ, Corp Y's QEF election remains in effect unless invalidated, terminated, or revoked pursuant to Reg. 1.1295-1(i).
