USCo is a corporation resident in the United States. USCo owns 100 percent of the shares of DCo, a company resident in Denmark. USCo operates a large research and development facility in the United States that licenses intellectual property to affiliates worldwide, including DCo. DCo and other USCo affiliates then manufacture and market the USCo-designed products in their respective markets. Because the activities conducted by DCo and USCo involve the same product lines, these activities are considered to form a part of the same trade or business.
